Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. 4. **As per claim 31**, the Examiner found no reference in the prior art that disclosed or made obvious a method of improving the quality of X-ray images generated by an X-ray imaging system comprising the steps of: processing a low dose pre-shot image to provide imaging parameters to be employed during a subsequent X-ray exposure, wherein the imaging parameters
